SUMMARY

Motivated and enthusiastic Information Technology undergraduate at the Institute of Technology, University of Moratuwa, with a strong interest in Full-Stack Software Development. Possess a good foundation in programming, web development, and mobile application development, along with strong problem-solving, communication, and teamwork skills. A quick learner who is passionate about exploring new technologies, applying academic knowledge to real-world projects, and continuously improving technical and professional skills. Seeking an internship opportunity to gain industry experience, contribute to software development projects, and grow as a Software Engineer.

SKILLS

Languages & Frameworks: Python, Java, Dart, PHP, JavaScript, HTML, CSS, React.js, Flutter

Databases & Tools: MySQL, Firebase, Git, GitHub, Docker, Postman

Other: REST APIs, UI/UX

Soft Skills: Teamwork, Communication, Problem Solving, Time Management, Self-Learning

PROJECT EXPERIENCE

Smart Medical Hand Band – Elderly Health Monitoring System

Final Year Group Project | Flutter, Firebase, IoT Sensors, ML, BLE | GitHub Repository

- Developed a smart wearable system to monitor elderly users' health and daily activities in real time.
- Integrated heart rate, SpO_2, body temperature, motion and pressure sensors for health and fall detection.
- Developed a Flutter mobile application for caregivers and a web dashboard for viewing health reports and alerts.
- Implemented medicine reminders, emergency alerts and real-time data synchronization using Firebase.

University Student Event Management System

Individual | React, JavaScript, Tailwind CSS | GitHub Repository

- Designed and developed a web-based platform for managing and discovering university events.
- Created user-friendly interfaces for event browsing, registration and event information management.
- Applied UI/UX principles to improve usability and accessibility.

Job Application Tracker

Individual | React, JavaScript, Tailwind CSS, Firebase | GitHub Repository

- Designed and developed a web app to manage and track job and internship applications.
- Implemented features to add, update, delete, and monitor statuses, including interviews and job offers.
- Integrated Firebase Authentication and Cloud Firestore to manage user accounts and store data securely.

Personal Portfolio Website

Individual | React.js, CSS3, GitHub Pages | Live Demo | GitHub Repository

- Built a responsive, modern dark-themed single-page portfolio using React and modern CSS architecture.
- Implemented interactive typing hero animations, scrollspy navigation, and deployed via GitHub Pages.

CERTIFICATIONS

- Diploma in Information Technology & English | Esoft Metro Campus
- Certificate Course in Introduction to Data Science | CISCO Networking Academy
- Certificate Course in Python for Beginners | CODL, University of Moratuwa
- Certificate Course in Web Design for Beginners | CODL, University of Moratuwa
